

# HEAVY DUTY PULSATOR® FLUSHING

- A/C Component (Evaporator & Condenser) Flushing
- Engine Cooling (Radiator & Heater Core) Flushing
- Oil Cooler (Transmission & Engine) Flushing

## For Heavy Duty A/C Compressor, Water Pump, and/or Allison Transmission Installs.

HD system heat exchangers & components are often unique and expensive; equipment downtime is lost revenue and rapid or repeat failures are unacceptable. The HECAT Patented Pulse technology is proven (Navistar-essential, Ryder-required) to quickly, properly, and effectively clean and clear debris and contaminations from these circuits; restoring the "like new" cleanliness required for parts warranty, OE flow, proper thermal transfer, improved confidence, and quality of the work.

**FAC-400  
HD Kit**

The **FAC-400HD** is a Clean, Fast, and Efficient **A/C Flush Cart**. The Powerful Pulse Process Cleans Modern Condensers - Solvent Recycling with the Flip of a Valve Carbon Fume Control - Visual Validation of Debris, Waste, and Solvent Removal.

- The FAC-400HD Includes...
- The FAD-100 Universal A/C Flush Adapter Kit.
- 6 Gallons of Safe-Flush A/C (3 solvent changes w/filters).
- HD Hose Extension Set to Double the Reach.
- SKU #118726BHD, Skid Weight is 180 lbs. **LIFETIME WARRANTY.**

The **FAC-200HD** is a Clean, Fast, and Efficient **Portable A/C Flush Tool**. The Powerful Pulse Process Cleans Modern Condensers - Visual Validation of Debris, Waste, and Complete Solvent Removal.

- The FAC-200HD Includes...
- The FAD-100 Universal A/C Flush Adapter Kit.
- 6 Gallons of Safe-Flush A/C (3 solvent changes).
- HD Hose Extension Set to Double the Reach.
- SKU #118507BHD, Skid Weight is 130 lbs. **LIFETIME WARRANTY.**

**FAC-200  
HD Kit**

**ENGINE  
COOLING  
PULSATOR  
HD KIT**

Engine Cooling Systems Produce Organic and Oxide Particulates – SCA's Only Rejuvenate Coolant Chemistry - Sediments Will Build up in Radiators & Blocks; Clogging Heater Cores - Drain & Fill, Machine Exchange, or Hose Flush; Will Not Remove Particulates - The Powerful Pulse Energy of the Very Popular Heavy Duty **Engine Cooling Pulsator** (ECP-HD) Will Dislodge, Suspend, Lift, and Move it Out. Requires Only Clean Water & Shop Air Pressure - No Chemicals Required.

- The ECP-HD Kit includes...
- Pulsing Gun Assembly, 3 Heater Hose Adapters, and Whip Hose.
- Rubber Cones for HD Radiators, Auto Radiators, & Heater Cores.
- Durable Padded Storage Case. 17x14x5, 12 lbs. SKU # 118550HD.

The **MARK IV HD** is a Clean, Fast, and Efficient **Trans Oil Cooler Flush Cart**. The Powerful Pulse Process Cleans Large Oil Coolers - Solvent Recycling with the Flip of a Valve - Carbon Fume Control - Visual Validation of Debris, Waste, and Complete Solvent Removal.

- The MARK IV HD Includes...
- The Trans Oil Cooler Flush Adapter Kit.
- 6 Gallons of Safe-Flush Trans (3 solvent changes w/filters).
- The 1/2 & 5/8 Allison Cooler Line Quick Coupler Sets.
- The HD Hose Extension Set to Double the Reach.
- SKU #118726BHD, Skid Weight is 180 lbs. **LIFETIME WARRANTY.**

**MARK IV  
HD Kit**
